

# 4TH QUARTER FORECAST

## WHERE DOES MISSOURI STAND?

HOW MANY MORE GRADUATES ARE NEEDED TO REACH **90% FOR ALL?**

Black	 	2,009
Hispanic		234
White	 	449
Students with Disabilities		1,263
Low-Income	  	3,140
All Students	  	2,843

10000 Students  
(An Arena)

1000 Students  
(A Theater)

200 Students  
(A Cafeteria)

All icons are rounded figures to give approximate sense of number.

Note: The number of additional graduates needed to reach 90 percent graduation rate(s) for all students and each subgroup was calculated using the aggregated 2012-13 district level ACGR file (i.e., for the state level cohort sizes) and the 2012-13 graduation rates. The figures displayed in the above table were calculated such that the number of students needed to reach a 90 percent graduation rate was done for each group of students by state. Therefore, the totals for the individual subgroups do not total to the sum for all students.
